Opening of the Restaurant Pavillon at the Boutiquehotel Sonne Küsnacht-Zurich

Küsnacht, 4 May 2026: Sonne Küsnacht presents the newly designed Restaurant “Pavillon”, opening on 10 June 2026. The former “Sonnengalerie” has been reimagined in collaboration with Küchel Architects. The result is a space that combines dining, lounge and bar, oriented towards Lake Zurich.

With its winter garden and avant garde design, Restaurant Pavillon integrates harmoniously into the existing structure of the hotel while also establishing itself as an independent area. Together with Küchel Architects, a concept has been developed that brings together openness and structure. Generous window fronts, warm materials and carefully designed lighting shape the overall appearance, create a calm atmosphere and direct the view towards the lakeshore.

As part of the renovation, a new brand identity has also been developed. The logo complements the concept and reflects the design language of the space.

The new restaurant represents contemporary cuisine under the direction of David Lange. His experience in fine dining, including work with Michelin starred chef Heiko Nieder, is reflected in a reduced and focused style. The team places emphasis on regional and seasonal products, combining classic dishes with international influences. The focus is on quality, the product itself and precise preparation.

“With Pavillon, we are creating a place by Lake Zurich that puts culinary quality and hospitality at its centre. It is a place to arrive, to enjoy and to feel welcome,” says Harald Raab, General Manager and host of Sonne Küsnacht.

Restaurant Pavillon is open seven days a week. In the morning, hotel guests use the space for breakfast. At lunch and in the evening, an à la carte selection is served. In the afternoon, a reduced menu with hot and cold dishes complements the culinary offering.

With Restaurant Pavillon, the Boutiquehotel Sonne expands its gastronomic portfolio with a destination on the Gold Coast that brings together cuisine, hospitality and its unique location.
